

HAZMAT INCIDENT COMMANDER

APRIL 11-12, 2022

This course provides the tools a person needs to assume command & control of an emergency response to a hazardous materials incident. It focuses on the legal and practical requirements to safely and competently manage a hazardous materials incident. Instructional methods include class activities, case studies, and tabletop exercises, with an emphasis on hands-on decision-making. This program meets OSHA requirements and NFPA recommendations for training at the Incident Commander level. (16 hours)
